This A5 size mono compilation magazine could be the ideal way to broach the subject of wet sex or watersports with a new acquaintance or friend. This is a collection of cartoons, limericks and funnies of the kind you could show to almost anyone, it is completely non offensive. This is the only safe way to find out if a person can accept any of the various aspects of watersports. If he/she finds it humorous, then you know there is a probability and you're laughing too!! If he/she finds it boring or un-titilating, you'll know where you stand re: the opinion on w/s of whoever it is you're showing it to. We don't know any other safer way of broaching the w/s subject other than this, you come out of it with your ego and credibility completely intact!!

Thank you for requesting details about *Cascade Magazine*. Let's get one thing straight, the term '*watersports*' when mentioned means '*wet sex*' – so there's no scuba diving or snorkelling here - OK?

The mag. is an A5 size mono, there's no colour, gloss or hard porn, but it does have lots of stimulating wet erotica and some very interesting and sometimes amusing wet content. Every page is about w/s & knicker wetting, there's no items on Adult Babies or other similar fetish topics. There are stories, pictures, sketches, readers' letters, the all-important contacts and a few ads which you may be interested in scattered here and there.

Most of the magazine's content is by way of readers' contributions and feedback. We're a world-wide magazine with subscribers from Teignmouth to Timbucktoo.

We have a regular contacts section on the Internet – where we have many hundreds of hits every week and get some very interesting e-mails! Placing an advert is free. *Cascade* has been running since 1991. There are back issues a plenty, our *Wet Compilation Magazines* (or WC's) and watersports audio downloads.
